

TOWN&COUNTRY

PROPERTY OF THE DAY: ARTISAN, FITZROVIA

A boutique development of 13 properties characterised by
the finest craftsmanship

BY FRANCES HEDGES 9 FEBRUARY 2016

THE PROPERTY: This new development by Dukelease Properties comprises 13 beautifully designed apartments and penthouses inspired by Fitzrovia's history and artisan scene

THE LOCATION: The apartments are spread across the upper floors of five terraced buildings in the heart of London's Fitzrovia

THE INTERIOR: The properties have a luminous feel thanks to the installation of glass ceilings, skylights and, in some cases, floor-to-ceiling windows. Craftsmanship lies at the heart of the design scheme of every apartment, with features such as timber chevron flooring and fabric detailing on the walls; the crowning glory of the penthouses is the inclusion of a bespoke staircase designed in a sweeping, spiral or floating style

WHY WE LOVE IT: The exterior of the properties is as ingeniously crafted as their interiors, thanks to a clever design by [Rolfe Judd](#) that reflects the original architectural character of the local area while introducing some contemporary elements, such as a 'ribbon' of Portland stone. Other desirable external features include the provision of decked balcony areas on some of the penthouses, offering rare outdoor space for such a central London location

BUY IT NOW: Prices start at £1; [register your interest here](#)
